

# w | L L U S IMMEDIATELY

# 1. LEARN IT

With the skills you gain at a VetPrac course, you can dramatically increase your income.

# 2. BILL IT

For example, if a new procedure you've learned bills for \$730, with just three procedures you'll have paid for the \$2200 course that helped you gain that skill.

## 3. CLAIM IT

Plus, you may be able to claim some or all of the cost as professional development or a tax deduction.

Surgery of the perineal and urogenital regions are challenging and smelly. Yet sometimes small procedures like anal sacculectomy can dramatically effect the comfort of your patients. Develop surgical techniques on dogs and cats with the support of internationally acclaimed specialists and laugh with friends over the PITA experiences you have in practice.

# DR JAMES SIMCOCK

BVSc DACVS DECVS

Dr Simcock graduated from the University of Melbourne with honors in 2005. In 2013 he became a Diplomate of the American College of Veterinary Surgeons and a Diplomate of the European College of Veterinary Surgeons. James is registered as a specialist in small animal surgery in Victoria. He is also an internship director and surgical residency advisor for the American College of Veterinary Surgeons. James has published on gastrointestinal and urogenital surgery and oncology and has presented a number of times at the Australian College of Veterinary Scientists, Science Week. He is actively involved in teaching students and veterinarians and is an instructor and lecturer for a veterinary of post graduate education courses in surgery. James is an examiner for the Fellowship examinations in Small Animal Surgery. James is a co-director and owner of Southpaws alongside Dr. Charles Kuntz.

#### **DR SUE GIBBONS**

BVsc FANZCVS

Sue Gibbons graduated from Veterinary Science at the University of Queensland in 1997. Her first job was in a small animal practice on the outskirts of Brisbane. She completed her residency in Small Animal Surgery at UQ in 2002 and worked at Veterinary Specialist Services in Brisbane, and Willows Referral Service in England, before successfully sitting her Fellowship in Small Animal Surgery in 2006. Over the years Sue has lectured, tutored, mentored and examined both under-graduate and post-graduate Veterinarians. Sue started her "mobile" surgery business in 2007, servicing Brisbane, the Gold Coast, northern NSW and western QLD. Her areas of interest include orthopaedics and spinal surgery.

# DR PETER DELISSER

BVSc (Hons) CertSAS DipECVS FHEA Peter is a Brisbane local He moved to the UK in 2005, and completed a surgical residency at the University of Bristol in 2012. He then passed the ECVS exams in 2013, qualifying as a European Veterinary Specialist in Small Animal Surgery. Peter enjoys the challenges presented by all types of surgery, but has a particular interest in urogenital surgery. Dr Delisser joined Veterinary Specialist Services in Brisbane in 2017 and has published scientific papers and presented scientific abstracts at conferences on a wide range of topics from fracture repair techniques to management of urinary incontinence in bitches.
