EVENING SETS TO PRACTICE**

# PRACTICAL SKILLS BOOTCAMP

# SKILLS • SUE WILL • IMMEDIATELY

## 1. LEARN IT

With the skills you gain at a VetPrac course, you can dramatically increase your income.

## 2. BILL IT

For example, if a new procedure you've learned bills for \$1000, in less than three procedures you'll have paid for the \$2990 course that helped you gain that skill.

## 3. CLAIM IT

Plus, you may be able to claim some or all of the cost as professional development or a tax deduction.

Feel a little overwhelmed by having all the responsibility of running a hospital and making life and death decisions that can save or ruin a life? You know you have a pretty good memory and know all the important stuff, but HOW do you implement it in the clinical setting?

This is the workshop for you.

Specifically designed for vets who are new, need an update or are returning to practice after hiatus – this workshop will get you fit for the job. We spoke to lots of people, and this is the nuts and bolts of practicing that will get you through the day smiling. Along with surgical skills we will have communication and meditation topics to balance out each day. We'll work you hard and give you the support to get you to where you need to be to do the job confidently and competently.

## **DR TANIA BANKS**

BVSc, FRCVSc  
(Small Animal Surgery)

Tania graduated from The University of Queensland in 1997, and then spend 18 months in small animal practice in Brisbane. An internship was then followed by a small animal surgery residency at The University of Queensland and at Veterinary Specialist Services (VSS) Underwood. Tania was awarded a Fellowship in small animal surgery (by examination) in 2005, and has practiced as a specialist surgeon at various referral centers in England and Brisbane, and recently completed a PhD in tissue engineering. Tania has recently taken up a position as a surgical consultant at Charles Sturt University (CSU) at Wagga Wagga. Tania performs all aspects of small animal surgery with a particular emphasis on soft tissue and oncology surgery.

## **DR ELLIE LEISTER**

BVSc MANZCVS (Small  
Animal Medicine)

Ellie is the Pet Intensive Care Unit Veterinary Manager at Veterinary Specialist Services in Brisbane. In 2004, Dr. Leister spent 4 years in mixed practice in country NSW before sitting memberships and moving to England where she turned into a small animal vet and her passion for emergency and critical care started. Ellie has worked exclusively as a critical care veterinarian in the Pet Intensive Care Unit at VSS in Brisbane ever since. She manages a team of 16 people and the ICU operates 24/7. The PICU is known nationally as one of the most well run and busiest critical care centers in the country. It manages very complex cardiology, oncology, medical and surgical cases as well as every day emergencies. Ellie shares her home with 4 cats, her dog and the Englishman she came back with. On days off she revels in domesticated bliss, studying or hiking.

## **DR CHRISTINE HAWKE**

BSc BVSc PhD MACVSc

Christine graduated as a veterinarian from the University of Sydney in 1993. She worked in small animal general practice in Australia and the UK for five years before returning to Sydney in 1999 to commence her PhD studies in immunology at the University of Sydney. After successfully completing these in 2003 and a break to start her family, she returned to the University of Sydney as a Lecturer in the Faculty of Veterinary Science in 2005. Christine became a member of the ACVSc in 2006 and is director of Sydney Pet Dentistry, which takes referrals from across NSW. Christine is a past-president of Australia Veterinary Dental Society. Christine teaches Undergraduate dentistry at the University of Sydney and she also accepts referral through the Animal Referral Hospital.
