EXCLUSIVE LEARNING OPPORTUNITY

1. LEARN IT

With the skills you gain at a VetPrac course, you can dramatically increase your income.

2. CLAIM IT

Plus, you may be able to claim some or all of the cost as professional development or a tax deduction.

BOOK NOW

Using laparoscopy for diagnosis and/or treatment, rather than resorting to an exploratory laparotomy as a first line treatment, offers your patients and clients significant benefits. Laparoscopy is usually a less stressful option in practice, with more rapid recovery. In this workshop you will learn about the technical and practical aspects of laparoscopic procedures. Under the guidance of specialists in veterinary surgery you'll build confidence with the equipment used in these procedures.

Increasing numbers of veterinarians are now offering minimally invasive surgical options perhaps it's time for your clinic to do this as well.

Classes are intimate with a high tutor to attendee ratio, maximising your learning opportunities.

DAY 1

1500	Registration	1715	Tutorial 3: Questions
1515	Welcome and introductions	1730	Pre-dinner drinks
1530	Tutorial 1: Introduction to laparoscopy – Principles & equipment	1800	Dinner
1630	Tutorial 2: Establishing ports & triangulation		

DAY 2

0730	Coffee	1215	Tutorial 3: Laparoscopic ovariectomy/ cryptorchidectomy
0800	Tutorial 1: Laparoscopic liver biopsy	1315	Lunch
0845	Practical 1: Understanding the equipment and access	1400	Practical 3: Laparoscopic assisted cystoscopy
1000	Morning tea	1600	Tutorial 4: Laparoscopic assisted gastropexy
1015	Practical 2: Navigating the abdomen / Laparoscopic liver biopsy	1700	Day ends
1115	Tutorial 2: Laparoscopic assisted cystotomy	1900	Dinner

DAY 3

0730	Practical 1: Laparoscopic ovariectomy/cryptorchidectomy	1115	Practical 3: Laparoscopic assisted gastropexy
0930	Practical 2: Getting the most from your equipment & text box challenge	1245	Lunch
1100	Morning tea	1345	Practice & revision
		1515	End

DR BRENTON CHAMBERS

BVSc (Hons) MVSc
FANZCVS Small
Animal Surgery

Brenton graduated from UQ in 1994, and worked in a mixture of small animal general practice, emergency practice and surgical referral practice for 13 years prior to undertaking residency training in small animal surgery in 2007-2010. After completion of residency training Brenton stayed on as Clinical Tutor and subsequently Lecturer in Small Animal Surgery at the University of Melbourne Veterinary Hospital. He successfully completed Fellowship examinations in Small Animal Surgery in 2013. Brenton currently completing a Master's degree focusing on thoracoscopic assisted surgery in the dog.

DR. PETER DELISSER

BVSc (Hons) CertSAS
DipECVS PhD FHEA

Peter is a Brisbane local. He moved to the UK in 2005 and completed a surgical residency at the University of Bristol in 2012. Peter then passed the ECVS exams in 2013 qualifying as a European Veterinary Specialist in Small Animal Surgery. Peter enjoys the challenges presented by all types of surgery but has a particular interest in urogenital surgery. Dr Delisser joined Veterinary Specialist Services in 2017. He has published scientific papers and presented scientific abstracts at conferences on a wide range of topics from fracture repair techniques to management of urinary incontinence in bitches.

DR KATHRYN DUNCAN

BSc, DVM, MANZCVS
(Small Animal Surgery)

Dr. Kathryn Duncan graduated from the University of Melbourne in 2015. Kathryn completed a rotating internship at Southpaws Specialty and Referral Hospital, and following this commenced a surgical residency at the Southpaws. She is a member of the ANZCVS in small animal surgery. Her residency will be completed in February 2020 and her specialist exams are scheduled for 2021. Kathryn enjoys all aspects of small animal surgery, but has a special interest in cardiothoracic surgery and neurosurgery.
